

Professional Readiness for Innovation, Employability and Entrepreneurship

IDEATION PHASE

Project Report for week 4 (12th-17th September 2022)

Project Title: Nutrition assistant Application

Mentor Name: Mr.S.Vijayakumar

Team Members:

- Shivaani B (Team Leader)
- Sri Varshini R A
- Sowjanya G
- Durga P

On Sep 13 all my team members submitted the assignment-1 resume creation in the Github. In the training session we installed flask and run a simple flask program then learnt about how to route, redirect, render the webpage and how to get dynamic parameter and display in html page.

To complete the brainstorming activity, we discuss about the ideas in google meet and defined it in the template of brainstorming and Ideation Phase given in Mural on Sep 13,14 and 15 and submitted in the Github as per the instructions given. In that template we clearly defined about the problem statement and grouped our ideas based on the importance.

On Sep 15 session we learnt about layout design, did some hands-on project in flask like creating forms (sign-up and login page) and Flask API. In this session trainer gave another assignment which is to create a flask app with sign-up, sign-in, home and blog page with bootstrap.
